I met Kris in 5th grade and we stayed friends through graduation. Her family was so kind to me. She was always so sweet. She is gone way too soon.

Gary and boys, I am deeply saddened for your lose. Kris was such a genuine sweet person, she will certainly be missed. She never said a negative thing and always seemed happy. She certainly loved her family and it showed.

I met Kris and Gary in dinner club. This couple has touched me so much. Kris is one of the nicest, kindest people I have ever known. She and Gary always went out of their way to make everyone feel good. Kris always wanted to take care of everyone, if any of us were having something going on, she wanted to help. Kris offered to take my mother in law out to lunch, watch over her if I needed a break, she even wanted to come over and clean my house when I was going through breast cancer. Gary too is always the gentleman. I didn't let her clean my house but I know she would have. I loved you Kris and I miss you. Gary love you also. Celeste

I first met Kris because Gary and George worked together. And then about 12 years ago, they joined our dinner group. Kris is one of the sweetest people I know and so caring of everyone in the group. Our thoughts and prayers are with her family now because she will be deeply missed.

You are missed. You were always there. Weather it was at 5 am when we were off to go fishing & having a coffee ready or sitting in the stands at your kids little league games cheering. You left a mark! Thank you for all the joy you brought into this world!
