

Lemonte Peterson

August 24, 1916 ~ June 15, 2025

What a great picture! Love flows your way during this time. We know all is well with you and your family. Blessed be the name of the Lord!

President Peterson, as I've always known him, was truly a wonderful man. I still vividely remember many of the things he talked about and his passion for life. He made such a powerful impression on me, even as a small child in church. He had a way of making everything come alive. He will be missed by all.

Susie Peterson walked by my home this morning as I was watering and told me that her father, President Peterson had passed away. Immediately my mind went back way back to the 11th ward our church family headed by Lamont Peterson. He is one of the three most influential people of my growing years. I'll always remember his being very, very kind and interested in all the lives of the youth in our ward. Lamont Peterson was always a source for good in my life 108 years is unbelievable…. President Peterson will never be forgotten. My condolences to Susie and her family…..JohnHess..

Dear Sue and the whole family, I just found out about the passing of your dad. Beverly emailed the notice to me. She will be at the funeral. Please accept her presence as a representative of our family. He had a profound effect on all of us as well as everyone who had contact with him. Such a remarkable man and representative of the best of humanity. Please know of my deep sorrow. I wish I could have been there. Deepest love, Vola

President Peterson has truly influenced my life for good in so many ways. How blessed I was to grow up in the 11th Ward and hear his words and feel his love, and have him as an example of pure goodness. He has taught me many lessons that have impacted my life. He also gave me my Patriarchal Blessing! Susie, you are a remarkable daughter and I wish I could be there to give you a big hug! I send you my love instead.

What a great man! He gave me a missionary blessing when I went to Denmark, it was amazing. He blessed me that I would learn the language quickly and I did. I can't believe he lived to be 108, he led a full life and contributed so much to so many

I so much enjoyed Brother Peterson. He gave me the most wonderful patriarchal blessing in 79. Our last visit this year he just had to wear my cowboy hat. His kindness and goodness were simply through the roof. I sure wouldn't doubt he's being utilized for the 2nd comings' preparations!!!
