

Leo Edward Miller

January 1, 1938 ~ March 1, 2024

It was an honor to care for Leo as a member of the CNS team. I enjoyed my visits with him and always appreciated how much you loved him and how well you cared for him. May you experience peace as you grieve your loss.

Condolences for Y'all

- Pamela Kimber Anderson

My sisters and I were remembering Eddie and my father, Dean Kimber along with my sister, Connie and Nanette driving our old Chevy up to Buckland flats in Bountiful. There was a flat tire on the car and we had a hike down the mountain side above Pages Lane. My dad had Connie on his Shoulders. We ran into a rattlesnake, which had just swallowed a squirrel. There were many sweet times we had as cousins. Best wishes and condolences.

I absolutely loved getting to know Leo as a patient. I was his hospice nurse and I loved that he always had a smile and would joke with me, no matter his pain. It was my pleasure to care for him as well as get to know him, his family and daily caregiver Kathy. My sincere Condolences, thoughts and prayer to his loved ones. Sincerely
Leanna Parks, RN
