I remember Linda always ready to smile and laugh! She had a great love for all of her Smith cousins! I wish I could be there and feel the love of our wonderful Smith relatives.I know. Linda is having the time of her life with loved ones on the other side. She has left a great heritage of faith to all of us.

It's been quite an emotional ride. Having grown up with Linda's kids and being neighbors for years until my parents moved. Linda was always so classy, looked her very best, and she loves/loved her family fiercely. Her contagious and vibrant laugh is etched into my mind. And her smile so bright. My condolences to the family.

Linda is one of my dearest friends. We met in 1980 when we moved in next door. We clicked immediately and have been like sisters ever since. We could talk and laugh for hours. Linda always gave me great advice on everything from hair, makeup, decorating, etc. She was a very talented woman. Linda gave me lots of love. I will miss her dearly♥️🖤♥️🖤

How I miss my dear friend Linda! She really taught me how to be a devoted friend. We enjoyed our sweet friendship and had so much fun. I am so grateful that she has been blessed to be able to pass and at last be freed from her terrible pain. I miss her terribly! Linda is a woman of great faith. Her testimony of the Savior is deep and abiding. I love you dear Linda and miss you with all my heart! 'Til we meet again...

I am so sorry I could not attend Linda's send off services. I did watch on Zoom your family did her proud. We were neighbors when she and John lived in Holliday and unbeknownst bought homes in White City in the same subdivision and same ward. We became fast friends thru thick and thin for years. Until life's journeys pulled different directions. I enjoyed your family's heartfelt messages about her life especially the last years when I haven't seen her. She will always be in my heart. Bless your families, may you stay strong and stay together!
