Logan was such an amazing kid, my favorite memory was recent. We were in gym class and I was giving him a hard time in basketball and he just told me to be quiet with the biggest smile on his face. I wish I could have said more to him. I miss him so dearly, I can't stand not being able to see him outside of class with a monster in hand. I'm so sorry you had to lose your son, just please know he is so missed. I can't even imagine how hard it is for you guys. I'm dearly sorry. If you ever need anything at all… stories, pictures, help around the house, anything at all I'm a text away. 801-803-9019

Shannon and family I was so sorry to hear about the loss of your son. The years were too few, but I'm sure the love was and will be there forever. Although I didn't know Logan, it is always sad to hear of the death of a young man who has been taken from the community where he lived. In still moments, may you remember the love and the happy times you had together. Memories will give you strength as time moves forward without Logan. There will always be a place deep in your heart where those memories will live forever. With sympathy, Karren Jacobsen

Logan, i miss you so much. Everyday i wake up praying that i see you walking around at school. It's still hard for me to believe that you're really gone. You were always there for me and i thank you for that. You always told me "we are here for good time not a long time". And i will live by that. I love you homie, and i'm so so so sorry i never told you. You will always be in my heart. I'll never forget you and all the memories we had. Fly high buddy■ I love you logan.

I'm so sorry for what happened. Logan and you guys are in my prayers. I remember he was probably one of my first friends I ever had. Since like kindergarten. Then we kind of drifted apart and went different paths. I will always cherish all those times I got to come over and play with Legos, game on like the wii and Xbox 360, jump around on the trampoline, and hang out in your backyard. He was my main childhood friend and I wish I got to say good bye, but I'm glad I got to spend my childhood with him. Lots of love and I hope you guys are doing ok.

Yogi, I love you so dearly. You always had the brightest smile, and were someone I could count on to make me feel good. I loved our time together. Playing restaurant downstairs in Aunt Ma’s bar will never be the same. I will never not take a sip of Mountain Dew and not think “Ahh Whiskey”. Let alone look at a Lego Set, Batman or Joker themed anything the same. I will always think of the bright eyed smile you gave us when you talked about these things. I keep playing the last appointment you had with me, over and over in my mind everyday I go into work. I wish I got to care for you more than twice. And that I had longer that afternoon to talk with you. I had a feeling the tight hug you gave me before you left meant something greater. I miss you so much already. I’m so upset I can’t be with you, and our family to celebrate your amazing life. But at 6:00pm sharp I promise I will celebrate you in my own way. And I won’t be sad. But I will be happy, because that’s the feeling you brought me every time we were together. I love you very much Logan. I hope I make you proud. And I can’t wait to see you again some day.

There are no words that can soften the blow of such a heart wrenching tragedy. My heart aches for all of his family and friends. Logan made a positive impact on everyone he met. He left us way to soon and is so missed. The world lost a true gem.
