Deepest sympathies to the family.

- Martha Viola

Loved Lorri so much! And I know how much she loved her kids and grandkids!

- Kerri Salter

We loved our little visits with Lorri on her walks around the neighborhood her smile was contagious!! Sending love and condolences to all her family■

Sister, I miss you already! I will miss your 10 calls per day and telling me the same story for over hour each phone call. What will I do without hearing your voice. I miss you terribly! Thank you for always being my Wingman, always by my side, we were Mutt and Jeff. Shane said that he remembers us just being so crazy all the time....he said it didn't matter what was coming down ....good or bad....we would just just look at each other and crack up laughing! That's what I remember too....just laughing till we cried! Always know that I LOVE you with every fiber in my body....you'll always be my little sis whom I was ALWAYS happy to make Tang for! Give Mom and Dad and my baby girl a hug from me and tell them just how much I miss all of YOU. All my Love Forever and Always, Cinderella Robinhood Woodchuck Crandallberry

We are sad to hear of Lori’s passing. She was a beautiful girl. We have many memories of her. She has passed to a better place, her parents are probably so happy to be with her.
