

Marion "Mike" Cloyd Minor

January 17, 1942 ~ January 3, 2026

So sorry about Mike‘s passing. I have fond memories of growing up with him and always enjoyed his company. My condolences to his family.

- Lynn Pugmire

I recall when Portal Way was graded and new homes were built. When this happened we longer had a "pond" that would develop after a storm (at the bend where Bob and Pam Long lived) and we could no longer go "tubing" on the foothill. When the Minor family moved in, Dad and I were their hometeachers. This is the first priesthood assignment that became a joy to me - because Mike and Lucille welcomed us warmly. I also remember when Mike was injured at Kennecott and what it felt like to be unsure if a person could survive, and then thrive, after such an event. I was, and remain, inspired by his tenacity and determination. Blessings to Mike's family,

- Paul Young

I learned so much about being patient with young men from Mike Minor. He always had the know-how and the right tool to fix just about everything we broke. I’ll never forget waterskiing behind the Lucy Mae at Lake Powell and Mike’s patience while I learned to get up on one ski. He always welcomed “the boys” to his house and I can still hear his voice saying, “Hello, Kev!”
