

Marjorie Pauline West

June 11, 1925 ~ Dec. 28, 2020

Comfort for your family at this time. I remember meeting Pauline several years ago and enjoying the visit. ■■

- Barb Williams

To Pauline's family- I'm Morris's granddaughter. I want you all to know that we loved Pauline! She was sweet, smart, strong, and quick-witted. She made a mean peach cobbler too. I pray the memories you share of her will comfort you at this time. We were glad to have Pauline in our lives. God bless. ♥■ -Tonya Bell and family

We are so sorry for the loss of your sweet mother. Pauline held such a special place in our ward and in our hearts. She was not afraid to stand up on fast Sunday's and share her testimony of the Savior. She always had a smile on her face and a sparkle in her eyes. Marti was blessed to get to know her well through visit teaching & ministering and considered her a good friend. What an example of positivity and grace to everyone. Pauline- you will be greatly missed. Thank you for leaving your handprint on our hearts.

- Greg & Marti Knott

My name is Rita, and I am Pauline and Morris West's stepdaughter. I am so glad to have been able to know Pauline. I always admired her focus and listening ear and love for knowledge. She always took the time to listen to me - and I sure enjoyed my time with her. She was authentic. She was kind. She was firm in her beliefs. I don't know a lot about Pauline because I spent too much time talking - but when she was able to get a word in edgewise - it was always a good word. I have an especially good memory of her and I looking out the big living room window on Garnet Drive, as a storm rolled in. She told me that she loved to look out that window and watch the going-ons of the neighborhood children and the weather. So we watched the wind and clouds gather and had a great time.

Sure love your mom. She's as nice as my own.
