

## Marty Stenerson

*June 10, 1964 ~ May 13, 2022*

---

Oh good I just found out about this. I am heartbroken and in shock. Marty was a great man and great artist who touched and enriched many people's lives. I'm just trying to come to terms with this. He's got the cosmos as his new canvas. RIP my friend, the world's a lot duller without you.

- John Ned

---

Marty there are no words for how much you will be missed. You have left a huge hole in the universe. You introduced me to some of my life long loves and I will always be grateful for your friendship, insight, intelligence and kindness. Know you were loved by so many and have left an indelible mark on everyone.

- Wendy K

---

I came upon this obituary that Marty has passed after looking him up on google tonight October 15 2022. In the nineties he lived next door to me @LaFrace apartments, I was the manager at that time. Many of his paintings were in a gallery in Park City and I know his pencil drawings were the best, he did one one for me made the frame and gave this boat drawing to me. It's been on my wall all of these years. I have always loved it, now I treasure it. Marty was a special person to me. God bless you all, my heart is broken and I last saw him in the nineties, he was so good to me

- Sharon Philpot

---

Stumbled across this. Kara, Marty, Betsy and Sarah lived on the corner of Plum and Bower. Our block was huge, the summer lasted forever it seemed. So sorry you guys lost Marty.

- Doug Bader (From Plum Street)
