Our hearts are heavy for this news and for her family. Mary was a silent warrior! Our home was brightened with her piano playing and me trying to learn more about playing. Chaotic Thoracic ICU was calmed and tamed by her simply being there. What a beautiful soul the world has loss and the heavens have gained.■♥■

Mary is a wonderful person she was always so helpful to and kind to walk the dogs every day we are the neighbors to the east and loved seeing her happy cheerful smile. May God be with her and her family always.

I am sad to have heard of Mary's passing from her neice today. We were good friends at Cosgriff & Judge before losing touch. I remember her love of horses, Oklahoma sports, music & her love of books. Condolences to her family & friends.

I am just learning about this now and am incredibly saddened. After high school we lost touch and even though I tried to find her later, I obviously didn't try hard enough. She was incredibly intelligent and tolerant of others shortcomings. My sincerest condolences to her family and friends.
