In Jr. High I was a part of a group of four girls who were inseparable. Mashelle was one of them. She, Carol, Jeni, and myself had many wonderful adventures. We would put on dance shows in my living room for my parents. We spent hours in Jeni’s basement listening to Cyndi Lauper. She had a beautiful smile and a twinkly laugh. I am so saddened that she is gone. Before we started high school I moved away to another state and eventually lost track of the posse. Through the wonders of Facebook we hooked up again. Please know how much she was loved! For you Shell: “My flag boy and your flag boy were sitting’ by the fire. My flag boy said to your flag boy, “gonna set your flag on fire” talkin’ ‘bout hey now, hey now, Iko Iko anay.”

Christine, Shane and the rest of the Brugger & Hendrickson family, so sorry to hear about Machelle's passing. She was a great friend to have during the summer months growing up in Venice while staying at grandma & grandpa Brugger's home. I have many happy memories of those days. She will be missed and my condolences go to the family.
