Jill, I was a Cyprus Pirate as well and I knew several Day family members!! I would have loved to talk to him about Song-N-Yell it was a famous Cyprus tradition, and I am sure he loved it. You had so much fun traveling and I enjoyed hearing about all the places you two went. You did a great job trying to get him better so you could continue traveling, I think you earned your honorary MA degree. We love you here at Pentalon and we are heartbroken for your loss. Sending you hugs and prayers that you may be comforted at this time.

Oh Jill, I'm so sad to read this message! The two of you are TRUE WARRIORS! I could always feel the love you shared with each other. May the bitter moments soon be changed into sweet loving memories in your heart. ❤■ Although we haven't seen each other in such a long time, do know that you will always have a friend in me. My condolences to all your families! Love, Regina
