

Michael Paul Osterloh

June 7, 1963 ~ December 10, 2021

I’m so sorry to learn of Brother Osterloh’s passing. I know that he suffered a great deal, and it is a blessing that his pain is now over. From my own personal experience, our family knows what it is to lose a husband and father, and I know that Heavenly Father will bless you with His comforting spirit. Indeed we are so fortunate to know that life is eternal and that we will see our loved ones again. With much love, Carol Bartholomew (“Mrs. B.”) ❤■

Mike was a great friend. Although we have not stayed "close," I still value the countless hours Mike and I spent on the slopes and learning from each other when photography also required darkroom skills. His sense of humor combined with a serious passion for doing things well were an example to me. I will miss him. My thoughts, prayers, and sincere condolences are with Denice and their family.

So sorry to hear about Mike’s mighty struggle and passing. I knew Mike while on the Jerusalem Study Abroad Program. He is a wonderfully talented and intelligent man. I also remember him being adventurous and fun, always up for new experiences. My faith is he will continue to develop his talents and continue to learn on the other side of the veil, which will be all new experiences for him. Prayers and condolences for his sweet family at this tender time.

To the Osterloh Family, my deepest sympathies for your loss. I grew up going to Su Casa and at the age of 15 started working there, and continued for 10 years through high school and college. I'll always remember Mike as a kind man, valuing his employees and showing genuine interest in their well being and lives. He always remembered what was going on in my life and would ask how it was going, and I had great respect for him and his character. My favorite memory of him was when he tried to use used vegetable oil from the restaurant to fuel the big family van. He was creative and always thinking of new ideas. Your family will be in my prayers as you start to navigate this new normal.
