

Nancy Morgan

March 3, 1949 ~ January 13, 2021

I am so so sorry. It is really hard seeing relatives my age passing. Much love, Katie

- Katie Smart

We treasure our memories of your mom and all you wonderful children—David, Amy, Sarah and Meghan. Our time together in the 1st ward were days not to be forgotten. Your mothers sense of humor, compassion to all and bright and sensitive spirit endeared her to many. May her memory and legacy live on with you. With love. The Baumans

I'm a cousin of Nancy's. Our oaths didn't cross paths too many times. But, a very fun time we enjoyed with Nancy was to travel to Machu Piichu with her. She truly was compassionate, a lot of fun, a vast knowledge of our ancestors. Very interesting to talk to and a very enjoyable time travelling with her. May your family feel peace and comfort at this difficult time.

My prayers are with the children of Nancy. What an amazing lady! I know how much she was loved in our neighborhood. She was the BEST visiting teacher. I could sit down after a long hard day at work and she would send me a text that would make me laugh so hard. She had a way to always make everyone feel good. She will be missed very much! My love and condolences are with the family.

So many great memories of our times together, the talks and the wisdom. My heart is heavy when I think about this angel who has physically left our midst. I treasure the notes and have saved them all. Nancy is and inspiring genealogist and her statements on genealogy come frequently to mind. We benefitted from numerous Relief Society and Sunday School lessons that were full of compassion, humor, testimony and deep emotion. So many brains, humor and wits in you, Nancy! Love always, Diane Whittaker

I want to commend Nancy's children for their tender care during these past years of Nancy's struggle with cancer. She mothered you so well. We are all blessed to know Nancy. My first encounter with Nancy was in junior or high school when we became periodic pen-pals. I don't recall how that started up although our mothers are first cousins which must have been a link. We traveled college together and as expressed beautifully in the obituary I will remember her for her wisdom, quick wit, humor and quiet strength. Bless all of you.

I couldn’t be more shocked and saddened than I was hearing of Nancy‘s passing. What a great soul she was. We became dear friends while living at University Village and stayed in touch at least through Christmas notes year after year. I was surprised not to hear from her this year but I understand why now. She was a true hero to me. Please accept our humble sympathies and condolences for your family. Jan and John Clayton

I will dearly miss my neighbor and friend Nancy. Nancy seemed well acquainted with her Savior, Jesus Christ. I loved her Sunday.School and Relief Society lessons and she was a master teacher; witty, insightful, and spiritual. Many were recipients of her compassion and charity. To David, Sara, Amy and Megan may you be blessed with an abundance of the Lord’s peace at this parting. May you take comfort in the knowledge that you have followed your mother’s example in her care of you and others , in you tender care for her during these last difficult days. With Love, Karen Garff

I worked with Nancy in the preschool department at Granite School District for a number of years. She was an amazing mentor to me. She will be dearly missed!!

I am so sorry for your loss. Your mom was a wonderful person-funny and smart with a true sense of who she really was. We got each other through our early years in San Diego and had so much fun together doing it! San Diego was lonelier for me when she moved away. Know that you are all in my prayers

- Lora Schmidt

I always felt safe and cared about in your home because Nancy was such a wonderful mom to you four and to any kids in the neighborhood. No matter how busy or tired she was, she always took time to talk with children and really hear what we had to say. She was a blessing!

I only knew Nancy a few years, and mostly in her role as Primary President. But I appreciated quickly her unique combination of professional expertise and selfless love for the children. She engaged with everyone with a soft touch, but she knew where we needed to go. I am sad for the pain she had to go through these last years. My prayers go out to her family for their loss. She has a special place in my heart for her love and care for the children.

Tony, Mary Ann, Family Tony: Was very pleased that you put me in the loop to update me on family matters....namely hatches, matches, and dispatches. I was saddened to hear of Nancy's passing. I didn't know Nancy that well only visiting only at family get-togethers. I really enjoyed her personality. I guess it was because she always seemed to enjoy my "quirky" personality. I guess she didn't have the most joyous life that we all seek for but she seemed to have that infectious personality that puts everyone at ease. I was also impressed that she seemed sooo genuine! It's a quality that seems to manifest itself only by being around the individual that possesses it. May be it comes by experiencing some real hard knocks in life. She always struck me as being a sweet, kind, person. One that has been through the refiner's fire. The experiences that tend to either anger or bring humility. Again; it seemed to me that Nancy didn't have a mean or angry bone in her body. Being alone, with children, and holding a job with all the other responsibilities; ain't no fun. Loneliness is a terrible situation. And then to be struck down in the prime of life with a disease that would eventually take her life; makes many become bitter and question the justice of it all. Sorry I didn't mean to get philosophical. Just really brings home the "why's" and "wherefores" that a genuinely kind and sweet individual is taken at a particular time....a time it seems, we NEED a whole lot of there kind around.

Nancy was such a bright light. I grew up with her influence in my life and later was blessed to have her tips and tricks for facing my cancer head on. She sent me care packages, sweet little gifts, kind notes and encouragement- as she was dealing with cancer herself. We will miss you until we meet again! Much love ■

Best wishes to the family. We will miss the keeper of family history records.
