We'll love and miss you forever....

- Patti Buckles

Andrea (and all), I am so sorry for your great loss. I am sending you love and wishes for peace at this difficult time.
Sincerely, Lisa

Such a lovely tribute, I wish I could have known Chase better. Seeing what a great impact he had on his loved ones and the world, inspires me to be more like him and approach life as he did.

Andrea, families and friends we send our deepest condolences on the great loss of Chase. He was such a sweet guy and so funny too. We'll always remember the jam sessions in the backyard with him on guitar and the chickens sitting on it while he played. Much love and prayers to all.■■■

Chase was a good friend and a better man. I'm a better person for having known him. I worked with him at Optiv. He impressed me with his desire to "just do good" (that's really Big-G Good) - he was passionate about doing well,

playing hard, and all while keeping it positive. One of my favorite memories of him was playing D&D at Optiv and him bringing his guitar and singing out his bard's spells - the guy LIVED LIFE. My condolences to Andrea and family, I miss the guy and I was just a friend and coworker. I'm so glad I got to know him.
