How we loved Neal and Barbara. They were great friends and role models. Tom gave a talk once about the fabulous Knight heritage and Neal provided much information. We could sense his enormous pride and devotion to his ancestors. We were constantly amazed at the wide scope of his knowledge and interests. He was truly a gifted, talented and creative. man unlike any other. We never left their home without being amazed and grateful for him. His warmth and caring will be eternally remembered. We're happy that he is now reunited with beautiful Barbara. He was anxious for that reunion ever since her death. Blane and Julie have been the very best caregivers—patient and loving. They are a credit to the Knight name.
