Dear Kathy and family We knew that Branson was an important and gifted doctor. We were aware that he was a humanitarian who shared his gift with a large portion of the Third World. The loss to your family and to society is huge. But we didn't know he grew up in Portland, a wunderkind who excelled at athletics, academics and student life. We enjoyed learning about this aspect of a fine youngster who became a fine, even great, man. We are so sorry for your, and the world's, loss. "Winky" and Dan Oswald

Having shared an office with Dr. Call in the early 2000's I appreciated him so much. Dr. Call and his service to others was inspirational. Such a kind and wonderful man. To the Call family, thank you for sharing Dr. Call with so many when he traveled to provide care to those in need. Annette Mahler

Dear Kathy and Call family. Branson was such a hero, truly, to so many that he served! I have so many happy memories of Culver City with you two. You brought lots of energy wherever you went. I wish there was no pain with separation. May our Heavenly Father bless your family with comfort and faith. Lots of love, Inger Schmutz ♥

I met Brad when he was at Harvard. Kathy and I had just moved to Boston after graduating from the U of U. Brad used to show up at our apartment in Back Bay, always doing his hat trick. He kicked his hat in the air, and it landed on his head every time! We never guessed he would have even more accomplishments as an eye surgeon! I'm glad he and Kathy stopped in to see me shortly before he passed.

Thank you all for your kind words and amazing memories with my dad. He was an amazing teacher to me and great example of how to serve others with love and kindness. I am so glad to know of all the lives that he has touched. He is greatly missed and will always be remembered in our hearts

Today I send my condolences. Dr Call was a wonderful man. I had to have procedures done today at LDS hospital. As I went to walk out of the building and looked back I was flooded with emotion. Right now I'm 44 years old. I can remember back from a young age, being maybe five or six. Dr. Call was my dad's physician. My dad suffered with cancer and lost one eye because of it. I remember coming in sometimes 2 to 3 times a week. I remember going to his office with my dad. I remember being in the hospital when my dad had surgery. It was somebody's birthday and the doctor and nurses invited me to have cake with them. I think I was maybe seven or eight at that time. It was being around the doctor and nurses, they gave me Drive to go into healthcare myself. My dad spoke very highly of Doctor Call. My dad didn't like being put to sleep for procedure. Dr. Call performed many procedures right in his

office for my dad. He even removed skin cancer on his face. So as motion filled and the memories came back, I decided to look up Dr. Call to see if he was still alive because I'm here. Because if so I was gonna turn around and walk back in to see if he remembered me and my dad. But instead I came across his obituary. I'm sure my dad has met him up there somewhere and I'm sure they reminisce about all the care. Again I do send my deepest heartfelt condolences.

Kathy, We are cabin neighbors in Snake Creek. I hadn't realized until recently that Branson had passed. I am so sad for the loss to you and your family. Even though our acquaintance had been intermittent, Branson made a strong impression with his wit, care, and pleasant nature. It's been almost a year, and I know it will be a time of memories and tears. Please know that you are in my thoughts at this tender time.

DEAREST KATHY, I JUST RANDOMLY DECIDED TO LOOK UP BRANSON AND SEE IF HE WAS STILL IN PRACTICE AND SAW THIS BEAUTIFUL OBITUARY. HOPE ALL IS WELL. ALL MY LOVE, DIANE HART

This is a horrific loss to not only Utah and patients but patients around the world. Several years ago I had the pleasure of working with Dr Call. I have worked with several doctors since that time and he was certainly one of a kind. He accomplished what I consider to be the reason we are here on Earth. Thank you Dr Call for everything you've done and being in my world as a mentor to show me compassion and kindness and the most unselfish way.
