

Norma Mickelson Putnam

August 7, 1930 ~ June 29, 2025

I'm sorry for the time and space emptiness that the loss of your mom has created, but grateful for the love we share that gives hope for eternal joy. May the promises of eternity fill your hearts with peace.

- Denice Gregersen

So sorry to hear about your mom. I love visiting with her when I went to the rest home. She was a great lady.

I'm sorry I can't make it to the wake today. I have a full day at work. I know it will be a beautiful wake. I will always remember Norma for her resilience, her voice, and her laughter. I'm sorry for the loss to your great family. I pray that Heavenly Father gives you comfort during this difficult time. See you with King Normita.

We love Sister Putman! We have fond memories when she invited us to her home to pick up her delicious peaches. Her peaches were the best we have ever tasted, even better than Utah's! Jacob enjoyed learning gardening from her and grew tomato plants that she gave him. We enjoy her humor and happy nature. We went on a walk last night passing her and Brother Putman's home, we saluted it out of respect for two wonderful lives well lived. Love the Webb Family

I love Norma. We have been friends since 1971. We have had many adventures together. She was my handy book of instructions for everything. Please accept my condolences.

I am so sorry for your loss. Your mother was such a blessing to so many of us. I have very fond memories of her as well as your father. The Putnam's were always a part of our lives. I remember when your mother and father married, and I remember when Jane and Jill were both born. Your mother was such a kind soul and so pleasant to be around. Your family was always known for having such wonderful produce and fruits. That was a great childhood memory. Your mother was a blessing to us all. Sincerely, Ann Knight

To Jane and Kevin Smart I am saddened by the circumstances that prompt me to write this note. I express to Jane and others my sincere condolences. Norma successfully combined her capacities to love and be a powerful influence for good in the lives of family and friends. When I was at Uncle Melvin's working in the summer's we would go over the hill to see his brother Harris. There I saw and met all the kids. Norma was impressive! Her biceps were as large as Daniels or any of her brothers. She was tuff! Later she lived with us where the current Conference Center is in SLC where I grew up. Her biceps went away. She was just beautiful. I always wondered where those biceps went. I was 5 years younger. She has now taken that essential step in her eternal progression and returned home to our Father in Heaven. I pray that your knowledge of the gospel plan will give you peace and comfort at this tender time of parting and guidance i the years ahead. With love and kind regards,
