We love and miss Pat, her great kindness and her spunky energy to go with! My family met Pat when she was already 90 and I was cleaning apartments for Sterling Furniture. On occasion I would have a unit to clean above the store and, without fail, if it was a day Pat was at work she would ask if she could read to and play with my one and two year old while I worked for a couple hours. They LOVED this time with her and for years after my son would ask when we could go visit our friend Pat! Much love to the Madsen family and condolences in your loss.
