Gosh where do I start? you always taught me so much about so many things, we spent countless hours together crunching numbers you teaching how to code things and all about non profit financials! you had the patients of a saint with me through all my frustrations and non understandings UGH!!! even though eventually I got it... and the countless hours at your house with you and Ralph doing audit pulling what a blast it was to spend so much one on one time learning hands on so many different things with you both in the office and outside of the office but most importantly the friendship we also developed over the years... you were like a second mom to me... and a grandma to Hailee! we are going to miss you sooo much!!! R.I.P beautiful <3 .

You were such a kind soul, and would help anyone. I'll never forget the many late night conversations on the porch, or the many nights playing card games. Man you guys loved cards! Thank you for loving me and the kids the way you did. I find comfort knowing you aren't suffering anymore. Rest in peace Patty
