Thank you Brent, for the beautiful tribute to your wonderful mother. She touched many lives for the better in her variety of activities in her life. In years past it was fun to visit with her at the St Marks Hospital as I occasionally went visiting. I have many fond memories of all of you growing up on Loren Von where I first became acquainted with your family. It was also a pleasure to get to know know Lauren as she rented an apartment on the Avenues from me. Best wishes to all in the family as you celebrate the life of this great person.
