I wish I had a chance to meet Rick. I had a glimpse of the man he was through Heidi's love and admiration for him. Our family is sending loves and prayers as we celebrate his life this coming week. Kedma

I knew Rick from way back to the days we worked at McDonalds in Washington. We have not kept in touch much except through Facebook but sending out thoughts to the family. Good memories of playing hacky sack after the morning shift.

I'm very sorry to hear about Rick. We were together in A Co. 141 and in Iraq and I got to know him as well as I could but he was an understated guy as you know. I have no doubt his loss will be keenly felt.

SFC Rick McNulty was one of the most effective leaders I've had the privilege of serving with throughout my last 24 years of military service. He taught me the ropes as a young Sergeant transitioning into 1-41FA, 1BCT, 3rd Infantry Division. Little did he know the examples he set were the ones that set the standards for success throughout my career. We will miss him. We will never forget our brother Rick and the confidence and candor he showed while making the toughest task look easy. Speed and Power! Glory's Guns! Rock Of The Marne!

Dear McNulty Family, I am so sorry for your loss and pain. I wish I could ease your sorrow in this time of bereavement. Though nothing can compensate adequately for the place Rick held in your hearts or the role he played in your lives, I offer a few impressions and memories of Rick from our deployment in the hopes that they will have some ameliorating affect. I served with Rick in Iraq in 2010-11. He was a machine gunner and a intelligence collector on our mission. I was impressed with then SGT McNulty from the moment I met him in A Company. He was always cool, calm and collected--a veritable Steve McQueen! He was a highly reliable Soldier. He was steady and committed throughout the mob; he seemed unflappable and resilient no matter the situation; and he often sported that hint of a smile that let you kind of see into his heart. Moreover, he maintained the highest levels of physical fitness. I remember our first APFT (Army Physical Fitness Test) after the mob. I was partnered with Rick. I prided myself on scoring well in the events of the fitness test, but I knew Rick would outperform me. I took this as motivation to push myself. What I didn't know, was how thoroughly he would school me. Rick, as expected, out performed me in repetitions on push-ups and sit-ups, and in form (because he not only prided himself on scoring well, but also in performing everything to standard), he respectfully pointed out to me that my form was such that several of my reps should not have counted; then he gave me that hint of a grin of his. I will always remember Rick McNulty as reliable and steady, superbly fit and cryptically content.

I am sorry to hear of Rick's passing. I am grateful that men like him served our country and supported those that served. He has been a good friend to my brother and I will pray for his family to receive the grace and comfort only God can give. My condolences on his passing.
