Dick was my first boss. I helped him make ice cream and the filling for chocolates. He was a great influence for good in my life.

Dick was a member of the Utah Golf Association and served on its Board of Directors for nine years. He was dependable, cheerful, upbeat, and helpful. When he arrived in the hereafter his first words were probably "Where is the first tee?" Joe Watts

- Joe Watts

Dick Wood was the real deal...what a gentleman and always trying to be upbeat; he and I were teammates in Senior golf for years...I think he shot his age every round from age 72 to age 88.

So sorry to learn of your Fathers passing. He was a great man --he and your Mom were an amazing couple. May each of you be blessed with comfort and strength during this time of trial.

- Ann (Jackson) Troop

I didn't know Richard but his daughter Karen is my sister-in-law. I just want to say Karen spoke highly of her father and I'm sorry for your family's loss. I'm sure he is in a good place with his wife.

Dick is 20 yrs my senior and while I had vague memories when I was young of him I got to know him quite well when we purchased his membership at Willow Creek CC. Dick was a great cousin who I admired greatly and many fun times with him at The Country Club taught me of his generosity and fun loving nature. His work ethic rivaled my father Fay Chadwick who was the hardest working person I have ever known. Dick was a great example to me as are all my cousins. We will miss you Dick. Love Steve
