

Robert "Bob" Schmidt Jr.

September 15, 1959 ~ August 3, 2024

Bob worked with me for a while, he was a great man. He was a very prideful and hard worker. I was often astounded at what he could accomplish, I didn't often see such dedication or efficiency. I'm pretty positive he could outperform 95% of piers despite his age. Not only this, he was very friendly, easy to talk to and good company. Bob, I didn't work with you for a very long time, but the time I did work with you was memorable. Years later I still found myself wondering how you were doing. If you were able to take space in my mind like that, I can only imagine what a special place you had in others hearts who were closer to you. You will be missed.

I worked at the home he lived in and knew him for only for a few months but I'll remember him forever. We spent nights hanging out (mostly him scaring me on accident while coming back from a smoke break), and having some coffee. We miss you so much Robert.
