Sue, So sorry to see your brother Rob passed on. Not sure you'll remember me. I worked at HCS in the '80's and you helped make the time there entertaining. Some years later my niece was working for a company of architects. She talked about what a wonderful, kind, boss she had. She loved her job. He turned out to be Rob. My husband & some friends worked for companies that did the amazing Keith Brown Restoration. Wishing you peace and comfort at this difficult time. Take care, Becky

I feel that friends gives meaning to one’s life. If you are lucky enough to have 3/4 “go to” friends along the journey, your blessed. I hope you enjoyed the myriad of experiences we shared together as much as I’d did. You will always be a “go to with anything anytime” friend. You will be always be thought of and missed. Thank you for being part of my life.
