Rosalyn Barnes Mumford

May 7, 1927 ~ March 25, 2022

I had the pleasure of meeting Rosalyn when my daughter-in-law and I delivered food to her. We became friends and had wonderful talks and visits. She's one of the most amazing women I have ever met. I'm going to miss her so much. I'm so sorry for your loss.

- Vicki Stech

Rosalyn was a great neighbor to me growing up. I recall good talks, her fun laugh, and Christmas apple juice. She provided me my first couch upon getting married, light blue velvet ■ I will always remember her kindness.

- Gloria Steeneck Day

Justin and Teresa, I didn't know Rosalyn had passed away until I tried to visit her today and found the house being emptied. I don't subscribe to a newspaper anymore and don't see obituaries. I'm so sorry I missed seeing her again. I wish so much that I had made the time to stop by for one more visit. She was a lovely and very unique person. She appreciated the beauties of this world more than anyone I have ever known, and tried to influence me to smell the roses and look around and enjoy the world around me. She was a loyal and dear friend and was content to enjoy our friendship by "catching up" on our birthdays and Christmas, because of my crazy schedule. She adored all of her family and Kelsie's family also. I will always miss her and her influence will always be with me. When I walked into the house today I found the large family portrait that she treasured on the floor, leaning against the hearth. I asked the people who were milling through the house if the family was returning to get it and was told no, that if I didn't want it to be thrown away I needed to take it. I brought it to my home to keep it safe until I can get it to you. Please call or text me at 801-608-2965 or email me so I can arrange to bring it to one of you. I'm so grateful Rosalyn has been freed from her hearing and vision loss and having to be so slowed down by her physical frailties. I'm so grateful for her!
