

Antonella Mirabella Kelly

August 30, 1944 ~ April 22, 2019

I don’t know what to say. I’m so behind on things. Antonella was a force of nature sharing love and touching the lives of so many. I had the honor of working with her after she’d had to retire early due to health issues. Which didn’t stop her from establishing a free program through the Health Clinics of Utah. This program helped people who had neither the financial ability to afford access to assistance with mental health issues. Then also to provide much needed support to overcome and control their future and potential to positively contribute to the betterment of society in general. Even when she was dealing with her own health issue she put a program in place to help others. Thus showing the true force of nature set out to help others even when her body had decided to attempt to hold her back she simply said I’ve got more love to give and kindness to share with the world. Maybe that’s why it took so long for me to feel that she’d passed on. She in the end has left and impression on so many that she will continue to be honored by her works of kindness leaving a legacy that will never end. I just want to thank her for that infinite ability help others that will always live on in her honor until the end of time. May her love and compassion spread on to assist all that she can reach and keep her love for all ever growing. I could say more but this does in my mind show that shes gone from this life but she will never be forgotten.
