You will greatly be missed mom. I used to love the way you always had to count how many people were there at a family function. And you had me do it a few days before you died. at Copper Creek. You're a great lady. We love and miss you.

Marie was just fabulous. She was always so pleasant to visit with even when she didn't feel great, and I always felt uplifted after seeing her. I will miss her cute sense of humor and her matter-of-fact way of just taking the challenges of life and doing her best. She was a pioneer in her own way.

Dear Sheila, Here's sending my deepest condolences to you and your family. Just feel bad, I never got to meet this wonderful, great LADY. She was so kind, so caring, by what the obit says and from what you (Sheila) have told me. Sheila, you are just like your Mother! So caring and so kind. ■■

I'm so sorry. She was a fighter. I still remember that she gave me a copy of "Treasure Island" for my birthday when I was boy. It became one of my most treasured books.
