I will never forget Serge he was like my older brother. He helped me to be a decent Trap shooter. My memories with Serge at the Trap club will stay with me always..I do miss him.God bless Val and his family.

This has to be the Serge I knew years ago.I was planning on looking Serge up when we took a trip out west in a couple of years. He and I were both in the army at Fort Carson. Serge and myself got acquainted when we both discovered we had a mutual attraction to classical music. He was a class act and even though we lost track of each other, he had to have had a great life. Sorry we did not get to meet again. John
