Shirley is such a wonderful person! She put up with me for many years when I was at my most awful, a teenager. I can't count the number of meals she fed me, camping trips she took me on, or moments of kindness she shared with me. She has a wonderful sparkling personality and fire that definitely included letting me know when I'd crossed a line. I have so many fond memories of great times with Shirley and her family. She will be sorely missed! I love you, Shirley!
