

Stephanie Frances Wilson

March 23, 1956 ~ January 6, 2026

The first snowboarding trip Stephanie was on, Lane came home talking about how girl Alex's mom could mix a delicious pitcher of gin and tonics and brought the bar with her. He was very impressed. Since the Snowbird snowboard team had a few Alex's on the team, distinction was made by boy Alex and girl Alex. Stephanie was a wonderful soul and we'll miss her beautiful spirit. We are so very sad to hear of her passing and send our thoughts and prayers to the family at this time. We feel blessed to know and love her. Love, Lane and Robin Clegg

- Robin Clegg

Put simply, our time being around Stephnie was a wonderful experience. She had a glow about her and was an absolute pleasure to converse with! The Riggins family will certainly miss her, are thoughts are with you all, sending strong healing vibes to the family. ■■■■■■

- The Riggins Family

What a great loss to the world at large. We have lost a champion. My years working with her at Crossroads were filled with caring, sensitivity and humor. She was a blessing to us all. May you, her family, find comfort in the love and admiration we hold for Stephanie. We are blessed to have had her, for a short while, in our lives.

- Katherine Stack

Stephanie was a sister-in-law to me for many years and I truly valued our friendship. We have the same birthday (March 23) and would call and send cards to each other each year and this alone is a wonderful memory for me. She had a great interest in and memory of family and events and could tell countless stories of the nuclear and extended family she grew up and vacationed with, and also of course of her own nuclear family with Scott. She was consistently optimistic while also dealing with difficult things courageously as they arose. I will miss her. See you in heaven, Stephanie!

- David Widrig

Such a beautiful life so well lived & shared with so many. Her story inspires my belief she lives on in all who loved her & all those she loved so completely.
