Sorry to hear about your loss

- Thomas parker

We are so sorry for your loss! He was a jovial person and a fun dad! Far too young.

- Becerra Family

Thank you for being a great friend and someone who could always make me laugh and smile once you walked in the doors. Surely won't be the same with you not around, but you're always in our thoughts and prayers.

- Big Mike

There is no one on earth I would have rather had as an office mate over the last 4 years. You taught me so much, shared everything about each other and even snuck past the boss so we could go fishing in the creek behind our office building. You were always hyping up my projects as we had very similar interests. You were also the first person to bring Ciara and I dinner after we had our daughter. I will miss you like crazy brother. Hope you can send me a little message from above or one last prank one of these days.

- Austin Roberts
