Oh my, what a shock to receive email notification this morning about the passing of your wonderful husband , dad and grand-dad! Years of long ago memories came flooding through my head. We shared so much during those

years at WW Grainger, and after - i cant express the love and gratitude i have always had for Steve. Nan, too many times to remember all our get-togethers, having our kids growing up at the same time - i was trying to think of the last time we were together. But, ir-regardless of my memories, I cannot express the deep sorrow Rick, Jenny and I are are feeling for you, Allie and Chris, Scott and Stacia and the boys. The void in your life will never be filled, but the wonderful memories will bring smiles through your tears. Thank you to whomever thought to send me the email notification. You can be assured of my thoughts, love and prayers for you all during the services today. Rick and I will contact you next week, after things settle a little, to come over for a visit. Friends always... Pam and Rick

I have many memories with the Anderson family. Many trips to Zions and Lake Powell. Steve definitely had a gruff exterior, but he truly cared about the people around him. He was always one to encourage you to try new things. I have always told my children they have to try a food before they can say they don't like it and could never remember where I learned it from, but now I know. Steve was like a second dad to me. Even though I haven't seen him in a long time I am always thinking about you guys and hoping you are well. He is greatly missed. Love you guys tons!

Steve was a good friend of mine growing up in Rose Park. He and my brother Frank had a lot of fun driving fast cars fast. I love his family and think of them often and good times we had as kids.

Nancy, I send my deepest condolences. I considered you and Steve some of my fondest friends Steve was so good to me as an employer and it grew into a friendship. I cherish my time spent with him. He taught me so much and always had my back. I'm wishing you and your family only the best Love to you, Carla Hansen.

I was one of the many young people working at W.W. Grainger in SLC (1976-1983) during Steve's time as branch manager. He was a great teacher about all of those Grainger products in that ever-growing catalog. He ensured that we all represented W.W. Grainger with product knowledge and great customer service dependability. Those times were some of the best in my life working with some very wonderful people. It's where my husband, Jeff Bradley, and I met. I extend my love and condolences to his beloved family and friends that he's left behind.

- Carol Bradley

My deepest condolences go out to Nancy, Scot Allison and the entire family. What I great man! Steve taught me at a young age what it meant to work hard and gain satisfaction from a job well done. I worked under Steve for a

majority of his career at Grainger. We would occasionally meet at Steve's house for a work meeting. Nancy would make her usual gourmet dinner and then we would get to work. I remember a trip to the west desert where we rode our dirt bikes. I took Steve out to the bombing range and what a great time we all had. Then there was a phone call one Saturday morning to go on a ride in his airplane. I show up at the airport and Steve asked me where I would like to go. We ended up flying up to Jack Pot and then off to Wendover where we ate lunch. The Anderson's will always have a special place in my heart. Love you Steve.

Nancy, I am really at loss for words. I really want you to know how sad I am at Steve's passing. Carolyn's and my visit to your home have not been too frequent in our later years but we had many wonderful visits in your lovely home. I always admired your elegance in your home and the immaculate kept yard. I still have mementos from you and Steve. The grape plant that you gave us after the fire in our home is majestically just outside my apartment door. My love goes out to you especially and to Allison and Scott and their families.

I remember working at Graingers with Steve in about 1968, we had some fun and worked a lot. He said his cougar would beat my 65 fuel injected Corvette. I told him not a chance in hell, but we never did race. We are close in age but I learned a lot from Steve. Dave Wride

I was so sad to learn of Steve's passing..... My sincere condolences to everyone in Steve's family. Steve was my friend, my teacher, my mentor; and in large part, was responsible for my career advancement at Grainger. Steve's intelligence, experience, and leadership were invaluable to me. The time that I spent working for Steve and the crew at Grainger resulted in some of the best years of my life. I will miss Steve..... But more importantly, I will remember him always.
