I don't know that words could come close to adequately reflecting my love, respect, and admiration I have for Nana since meeting her 23 years ago. I learned so much from she and Gary, and I will always remember her and her example. Until we meet again.

A strong, brave woman, with character and personality. She fought until the last moment. I worked for her for more than a year and I can't find enough words to thank you for the opportunity to meet such an extraordinary woman.

We will miss our dear neighbor. She was kind, loving and generous and her spirit will be with us forever. She was blessed to have such an amazing family. Sincerest condolences.
