

Tina H. Straley

September 14, 1943 ~ April 22, 2025

I'm so sorry for your loss. I have fond memories of Tina from my time working with her in the Math Department at KSU (Kennesaw College at that time).

- Marlene Sims

Our heartfelt sympathy to the family. RIP Tina, you will be missed by your NSF friends and the national mathematics community.

- Ashok Agrawal

Had the chance to visit on the phone and share memories and laughs of the "Formative Years" in Atlanta and Auburn. The "Handelman's" portion just naturally brings a smile from sharing so many fun moments with Fran and Al, Carol and Ken. What a wonderful legacy you are part of. The future is brighter for the light you have brought, and shared with us.

- James N Dean
