It's always the good ones taken away so soon. Tyson, you were always kind, funny and a fun dude. I am sad that you are gone. You were loved by so many people and I am so happy I got to see you. Rest in peace and party hard in the afterlife.

I don't have children, so my nieces & nephews are my kids. My great nieces & nephews are my grandchildren. My nephew Brandon Parkin & Tyson were like brothers so Tyson was like a son. They did so much together like playing football. Playing golf. Going to concerts. Playing the drums in separate bands. Working together. My memory isn't like it was so I know there's memories of Tyson I'm forgetting. One I remember is playing football with Tyson & Brandon on Thanksgiving. We used to go to a time share in Wallsburg for Thanksgiving . We loved that place. It was a fun memory having Tyson's family there that year. Summer I offer my sincere condolences to you, your family & friends. God bless you for your tender Angelic care of Tyson (and all the other care givers who helped you). I KNOW we will all see Tyson again. ALWAYS REMEMBER: the separation from Tyson is TEMPORARY. We all love you & the tender care you rendered to Tyson. I hope you can feel all of our collective love & support to you & your family. We love you! ■♥■

I am so sorry. He isn't suffering anymore. He knows how much he is loved and missed. We will see him again and then we'll understand how this all works. Please let me know how i can help.

Garren, So sorry to hear about your loss of Tyson. It's heartbreaking to lose one of your own and is something difficult to imagine happening. I'm sure this past year (since he was diagnosed) has been hard on him and all of you. I hope you can find peace during this challenging time. Sincere condolences, Shellie
