Ardith Bowden Allred

October 7, 1925 ~ February 8, 2020

This wonderful Ardith was such a graceful contributor to all the lives she met. We were so lucky to meet her and be with her at the Sacramento Weavers Guild where she willingly led us for two years as president of a very large group of spinners and weavers -- arts in which she skillfully excelled. One of the many important things she brought to the Guild was instituting beginners classes so people with new interests would have help as they became part of the weaving community. Ardith had a way of bringing people into such a group, and then seeing them through to meet their goals. She led this large group skillfully and with the smoothness of a masterful leader. We are grateful for the time we had with her and have missed her since she could no longer attend our meetings. Thank you Ardith for helping so many people learn to weave and for leading a large group of mostly women on a skillful path. Your wonderful presence, skillful leadership patterns, and personal manner is remembered and honored, Thank you.
