

Vicki Lynne Evans Kolan

April 22, 1946 ~ April 15, 2024

As stars shine, Vicki was an illustrious image here in Sun City Palm Desert. She made her mark by consistantly showing her expertise , aiding all who needed help and by practicing kindness. Vicki is sorely missed and praised in this community.

- Lenore Leon

Vicki helped a recently graduated doctor to understand how the labor and delivery suite ran. She was a great source of wisdom and timely advice. To quote Dr. Steve Terry "she raised me from a pup". Her sense of humor got us all through tense times. RIP Vicki

- Morris Matthews

Vicki and Bob were wonderful friends to me personally and to the administration of former governor Mike Leavitt. We got acquainted with them through Bob's work as a senior officer at the Utah Department of Health and Human Services. Vicki and Bob ran a picture framing business as they transitioned into retirement. They framed beautiful memorabilia for the Leavitt administration. A favorite piece was an etching made from remnant Capitol dome copper after the Capitol roof was replaced. She selected a mat and frame that oozed historic copper. Over the years we became good friends. Vicki did framing for me personally. She was imaginative and resourceful. We had great fun channeling our creativity to frame paintings and memorabilia that I treasure. Vicki and Bob would also periodically surprise me with a framed picture of news stories they knew would have meaning to me. She was a wonderful human being who did good everywhere. I always thought that if I needed a nurse she was the nurse I would want to take care of me.

- Vicki Varela

Vicki Kohlan will never be forgotten. When I moved to Sun City in 2019, Vicki was the person that was assigned by Neighbor 4 Neighbor for my morning call. I always looked forward to hear her pleasant voice. Vicki is a person that will stay in my heart forever. She was always uplifting and pleasant. Vicki loved helping people and her kindness

will always be remembered.
