February 27, 1929 ~ November 6, 2022

Dearest Vough and Mark: I celebrate the beautiful life of your mother... I celebrate that you were blessed by having her in your life... I celebrate that both of you gave her all your love while she was in this world specially after your Dad's death. I celebrate the kindness that she inspired on you and the light that it represents for others in need. I celebrate "Ginny" with all my heart.
