

# William David Rossiter

*March 22, 1941 ~ February 24, 2024*

---

Judy and family, Please accept my deepest condolences. Though he suffered for the past few years, I know it's a difficult transition. I hope you all feel peace about it. David always has a passionate way about him in everything he expressed and that impressed upon me at a young age a desire to figure out what I'm passionate about. My family and I will continue to pray for you all. Love, Stephan

Uncle David was always kind to me. As a young child he would bring toys and introduced us to the hula hoop and gave me enough stamps to start my collection. He was interested and curious about us and would ask us questions like we were peers having a conversation and never spoke down to us. He was a very proud grandfather and seemed happiest when he could babysit and when he was in full health he enjoyed being a grandpa on road trips or playing kitchen or cars in his house. I can picture him grumpy at Lake Powell or a bit agitated in a gray sweater at a Thanksgiving but when I was in his house and he was comfortable all he would express was that he was so proud of all his kids and all his grandkids and what each of them was doing.

Dave was one of my very best friends growing up in Helena, Montana. He was a very passionate and intelligent young man, and an excellent basketball player! I was frequently invited to their ranch home in the Valley on Sunday afternoons for dinner and doing fun kid stuff. I loved his parents and I wish Judy and all Dave’s family the very best.
