Barbara - I just happened upon Chuck's obituary (I am a Utah girl at heart and still read the local newspaper) and was instantly flooded with so many great memories of our days in Scottsdale. How we loved being with you and your family. I just recently ran onto a photo of you and Chuck at some sort of church activity held in our home with everyone crammed into our little living room. It was back in the 60s. We surely all did know how to have a good time - lots of fun and laughter. You and Chuck were a "true partnership." We seldom saw one of you without the other. Now you can look forward to an eternal partnership. Sending our love and condolences. Russ and Barbara Benson
