

Frederick Leon Anderson

November 27, 1937 ~ June 8, 2020

I was saddened to learn of the passing of Fred. He and Frances were dear friends of mine and will be greatly missed! In 1988, he made arrangements to have my father, who was suffering with congestive heart failure in the Twin Falls, Idaho Clinic, life-flighted to the U of U Hospital. Because of him and the arrangements he made, my father had open-heart surgery and miraculously lived another 16 years! What a miracle for our family arranged and overseen by Fred! Thank you Anderson Family—we love you and pray for your comfort and peace at this difficult time!
