David was born August 25th, 1948, in Salt Lake City, Utah. A remarkably gifted transportation and product designer, David loved to learn about and draw cars from a very young age, leading him to eventually win a prestigious Fisher Body Award at the age of 18; graduate from Art Center College of Design in Pasadena, California with Honors; and establish design agencies and business associations with numerous leading clients. David was a true innovator and held many patents over his lifetime. His first patent was awarded while he was still in high school and his last just a week ago.

As a young man, David served a mission for the LDS Church in the Florida , Tallahassee mission where he would watch the Apollo launches in awe from Titusville. He served faithfully and diligently as a High Priest and Home Teacher.

With an unrelenting passion for far-reaching technologies, David was also an unabashed Star Trek and Comic-Con fan, sharing his love and interests with his children. In recent years, he lived with and selflessly cared for his mother Dorothy. We will miss him dearly.
