

## Charles John Maurer

*June 5, 1930 ~ March 26, 2019*

Our beloved husband, father, grandfather, brother, uncle and friend passed away due to a long battle with Alzheimer's. John was born in Oakland CA., during the depression where he lived in meager circumstances. Eventually they returned to Utah to live. He attended school at South High, graduating in 1948. John's father Clarence was a prominent builder in the Salt Lake Valley where he taught John many of his carpentry skills which served him, his family and others. He helped to build the family cabin in Big Cottonwood Canyon. The cabin has been a place of many great family gatherings, he put so much time, love and heart into this great dwelling. While serving an LDS mission in Sweden, his mother Virginia passed away. Upon completing his mission he spent a few months touring Europe. After returning, he attended BYU for a short period of time, and in that time he met the love of his life, Patricia Farnsworth. After a quick whirlwind courting they were married on June 24, 1954 in the Salt Lake LDS Temple. John transferred schools and they were off to Oregon where he finished his education as a Civil Engineer at the University of Oregon. He also took pottery classes where he became a very accomplished potter. While there they found that they were unable to have children so they started their adoption journey and were graced with three beautiful babies, all from Oregon. They returned to Utah where John went to work for UDOT. He had a very successful 35 year career and eventually became the Utah District 2 Roadway Design Engineer, where he had his hands in designing many of the Utah highways. He also served as Consultant Manager for UDOT. He retired in 1996. John and Pat participated in the Navajo Placement Program which brought Marilyn Martin to join the Maurer family who remains family to this day. John also loved the great outdoors which included hunting, fishing and panning for gold. John and Pat served in many callings for the LDS church. They were Temple workers at the Jordan River Temple and were released when they were called to serve as Missionaries at the Utah State Prison. They were instrumental in furthering the Genealogy Research Program, using the inmates as researchers, they also helped to start the African/American Genealogy Research Program. They served beyond their one year mission call for an additional 11 years. They were also Home Teachers to several inmates and maintained friendships beyond the prison walls. John and Pat started going to the Sandy Senior Center where John became the pottery teacher where he taught many seniors how to throw a beautiful pot. Throughout their retired years they helped raise their great grandchildren and they traveled and cruised extensively, visiting the many beautiful wonders of the world. John loved the Lord and he lived as Christ has asked us to, loving, kind and unconditionally. His wife Pat stood by, cared for and loved this man for 65 wonderful years.
