

Misha Himmelberger Morgan

July 5, 1975 ~ June 4, 2023

Misha Himmelberger Morgan was stolen from us along with her infinitely thoughtful, kind and wonderful boyfriend, Rodney Salm, in a senseless and tragic car crash on the afternoon of Sunday, June 4, 2023.

A cherished daughter, sister, twin, aunt and friend, to know her was to love her, and if she loved you, she loved you forever.

Misha's love is fierce and unyielding, whether it be her personal or professional life she wanted the best for everybody and put everything she had into helping others. This includes a long history of loving and advocating for animals of all kinds. Generous not only with her time and money, but also her kindness with a positive word about everyone; she was the best of us, relentless in her desire to make the worlds of her loved ones, of which there are many, a better place.

Misha impressed people from a young age, consistently creating a legacy of determination, confidence and compassion with every endeavor. Her striking outside beauty was no match for the beauty she held within herself, blessing each and every person she encountered. "Everyone needs an Aunt Misha" is a widely echoed sentiment by all those fortunate enough to even observe, let alone be touched by her remarkable and unwavering spirit of graciousness.

As a teenager Misha worked part time in the Personnel Department at Granite School District. It wasn't quite so large back then. Her high school boyfriend's mom hired her there so it was a loving place to work. She found many wonderful people here, including a fairy godmother named Carolyn.

She graduated with a Bachelor of Science from Westminster College's Nursing Program, and after a few years of nursing found a higher calling in teaching. Running the Medical Assisting Program at Granite Technical Institute, Miss Morgan beautifully educated 15 years of high school seniors who loved her. She also held dear the lifelong friendships of those she worked with during her time at the GTI.

Earning a Master's Degree in Business Management and Leadership gave Misha the opportunity to help even more students as the Career and Technical Education Coordinator at Cottonwood High School, the very high school where she graduated nearly 30 years before. She spoke often about the wonderful people she was grateful to work with and the friendships made over these past few years.

Spending time with friends meant the world to Misha, from long time childhood friends Cerise and Jill, to her "mom" friends and her "volleyball mom" friends that she got to love through her nieces, Auntie Misha always filled brunches or lunches and volleyball tournaments with entertaining stories and fun facts. She loved them all so much.

Misha leaves behind her parents Irene and Phil Himmelberger, older brother Gordon (Teresa), twin brother Matthew (Jayne), twin sister Teri, favorite brother in-law Allen, her nieces and goddaughters who she endlessly

adored with every ounce of her being Tessa and Quinn, her endlessly loved Yorkie Abby, her always loved Germany Family, her BFF Jill, the Salm family who she loved as her own, the wonderful friends she was so fond of that came with loving Rodney, and countless friends and loved ones from each phase of her life. Greeted in heaven by many loving friends and family members including her older sister Cindy, Tante Renate, her Mom across the street, Aunt Janet, and our sweet Penelope and Pepper.

We are shattered with the loss of this amazing force of nature. The world, while a better place for having had her in it, is immeasurably and forever darkened from the loss of her all encompassing light, there was so much more good she had left to give.

Celebration of Life Open House Gathering on Wednesday, June 14, 2023 from 10:30am until 1:00pm at the Adonis Church - 4176 South Adonis Drive, Salt Lake City, Utah 84124.
